Green Coastal Deal

Part A – Setting the Scene

Energy Transition

Part A - Rationale

Numerous activities in the WSR

- Transition from fossil fuel to renewable and clean energy
- Developments in the WSR:
 - Pilot projects
 - Studies
 - Strategies, e.g. local, regional, national, European
- WSF members are on their way too
- Requests by students

Part A - Aims

1. The WSF secretariat perceives a gap in collaboration and coordination
2. Concerted discussion on requirements, demands, risks and opportunities
3. Offering the Wadden Sea Forum as neutral discussion platform to a multi-stakeholder environment

Part C – WSF Activities

Energy Transition

Part C - Current Activities of the WSF

- Participation at the development of a hydrogen strategy for the Metropolitan Region Bremen/Oldenburg (together with WSF members)
- WSF as neutral discussion platform between actors and persons/institutions concerned
- Supporting project proposal of WSF members in the sphere of energy
- Guiding students' works

Energy Transition

Part C - Students

- University Wageningen: Florette Rijman
 - Energy Transition on Wadden Sea islands
- University Groningen: Zakaria A. Mohamed
 - The role of Wadden Sea ports in the energy transition with focus on hydrogen
